

Gruss an Teplitz Rose

Gruss an Teplitz Rose

Rosa 'Gruss an Teplitz'

Height: 5 feet

Spread: 5 feet

Sunlight: ○

Hardiness Zone: 5a

Group/Class: Bourbon Rose

Description:

A classic rose, this beauty presents beautiful, double scarlet blooms that are wonderfully fragrant; an upright sturdy shrub clothed in deep green foliage that is perfect as an accent plant

Ornamental Features

Gruss an Teplitz Rose features showy fragrant scarlet round flowers at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has green deciduous foliage. The oval compound leaves do not develop any appreciable fall colour.

Landscape Attributes

Gruss an Teplitz Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Gruss an Teplitz Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Gruss an Teplitz Rose will grow to be about 5 feet tall at maturity, with a spread of 5 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.
