

## Sutter's Gold Rose

### Sutter's Gold Rose *Rosa 'Sutter's Gold'*

Height: 4 feet

Spread: 24 inches

Sunlight: ○

Hardiness Zone: 7a

Group/Class: Hybrid Tea Rose

#### Description:

A lovely tea rose with golden-yellow blooms with an indian red flush on petal edges, and a strong fragrance; rich deep green foliage; a standout for the garden, containers, or along borders; very disease resistant

#### Ornamental Features

Sutter's Gold Rose features showy fragrant gold flowers with antique red edges at the ends of the branches from early summer to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves do not develop any appreciable fall colour.

#### Landscape Attributes

Sutter's Gold Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Sutter's Gold Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

## Sutter's Gold Rose

---

### Planting & Growing

Sutter's Gold Rose will grow to be about 4 feet tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
