

## Buff Beauty Rose

### Buff Beauty Rose *Rosa 'Buff Beauty'*

Height: 10 feet

Spread: 6 feet

Sunlight:

Hardiness Zone: 6b

Group/Class: Hybrid Musk Rose

#### Description:

This variety is exceptional as a large cascading shrub but branches are long enough to train on a wall or trellis; beautiful and elegant clusters of apricot blend blooms, with a strong tea rose scent, create a stunning presentation in the garden

#### Ornamental Features

Buff Beauty Rose features showy clusters of fragrant peach flowers with creamy white overtones and buttery yellow eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall colour.

#### Landscape Attributes

Buff Beauty Rose is a multi-stemmed deciduous shrub with a shapely form and gracefully arching branches. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Buff Beauty Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use

## Buff Beauty Rose

---

### Planting & Growing

Buff Beauty Rose will grow to be about 10 feet tall at maturity, with a spread of 6 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
