

Autumn Moor Grass

Sesleria autumnalis

Plant Height: 8 inches

Flower Height: 30 inches

Spread: 24 inches

Sunlight:

Hardiness Zone: 4a

Ornamental Features

Autumn Moor Grass' attractive grassy leaves are steel blue in color on a plant with a spreading habit of growth. The foliage often turns bluish-green in fall.

Landscape Attributes

Autumn Moor Grass is an herbaceous evergreen perennial grass with a ground-hugging habit of growth. It brings an extremely fine and delicate texture to the garden composition and should be used to full effect.

This is a relatively low maintenance plant, and should not require much pruning, except when necessary, such as to remove dieback. It has no significant negative characteristics.

Autumn Moor Grass is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Groundcover

Planting & Growing

Autumn Moor Grass will grow to be about 8 inches tall at maturity extending to 30 inches tall with the flowers, with a spread of 24 inches. Its foliage tends to remain low and dense right to the ground. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an evergreen perennial, this plant will typically keep its form and foliage year-round.
