Distant Drums Rose Rosa 'Distant Drums'

Height: 4 feet Spread: 5 feet

Sunlight: O

Hardiness Zone: 6a

Group/Class: Buck Rose

#### **Description:**

An extraordinary rose that features abundant bronze-peach flowers with lavender edges; compact, upright habit, quite adaptable and resistant to disease, a valuable garden shrub; all roses need full sun and well-drained soil

### **Ornamental Features**

Distant Drums Rose is blanketed in stunning fragrant peach flowers with coppery-bronze overtones, gold eyes and lavender edges at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall. The spiny brick red bark adds an interesting dimension to the landscape.

#### Landscape Attributes

Distant Drums Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

### **Planting & Growing**

Distant Drums Rose will grow to be about 4 feet tall at maturity, with a spread of 5 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
