Sweet Mademoiselle Rose Rosa 'MEInostair'

Height: 4 feet

Spread: 3 feet

Sunlight: O

Hardiness Zone: 6b

Group/Class: Hybrid Tea Rose

#### **Description:**

Ovoid buds open into large, full blooms in tones of rose-pink with orange-pink shading; exquisite fruit and lemon fragrance; abundant, continuous bloom on a vigorous plant with great disease resistance; an excellent cut flower

#### **Ornamental Features**

Sweet Mademoiselle Rose features showy fragrant rose flowers with pink overtones and a orange flare at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves turn yellow in fall.

#### Landscape Attributes

Sweet Mademoiselle Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. It has no significant negative characteristics.

Sweet Mademoiselle Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

#### **Planting & Growing**

Sweet Mademoiselle Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

### Sweet Mademoiselle Rose

4102 - 11th St. West P.O. Box 2A RR3 Saskatoon, SK, S7K 3J6 phone: 306-382-2077 info@lakeshoregardencentre.com www.lakeshoregardencentre.com

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
