Center Court™ Cherry Laurel

Prunus caroliniana 'GRECCT'

Height: 20 feet

Spread: 15 feet

Sunlight: ○ ●

Hardiness Zone: 8a

Other Names: Carolina Laurel

Description:

An outstanding dense, large shrub, that produces showy, fragrant, white flowers, black fruit and glossy dark-green leaves; its tidy appearance makes a stunning privacy hedge or landscape accent plant; takes pruning very well

Ornamental Features

Center Court Cherry Laurel features showy racemes of fragrant white flowers rising above the foliage in mid spring. It has attractive dark green evergreen foliage which emerges coppery-bronze in spring. The glossy pointy leaves are highly ornamental and remain dark green throughout the winter. The fruits are showy black drupes displayed in mid summer.

Landscape Attributes

Center Court Cherry Laurel is a dense multi-stemmed evergreen shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting birds to your yard. It has no significant negative characteristics.

Center Court Cherry Laurel is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use
- Windbreaks and Shelterbelts

Planting & Growing

Center Court Cherry Laurel will grow to be about 20 feet tall at maturity, with a spread of 15 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 50 years or more.

This shrub does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil pH, but grows best in rich soils, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selection of a native North American species.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
