### Anthony Meilland® Rose

*Rosa 'MElbaltaz'*

Height: 4 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 5a

Group/Class: Floribunda Rose

#### Description:

A stunning, vigorous rose featuring large, full, bright yellow blooms in small clusters, contrasted by dark green, leathery foliage; excellent for cutting; mild fragrance; blooms in flushes throughout the season

#### Ornamental Features

Anthony Meilland Rose features showy lightly-scented yellow flowers at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage which emerges crimson in spring. The glossy oval compound leaves do not develop any appreciable fall colour.

#### Landscape Attributes

Anthony Meilland Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Anthony Meilland Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

#### Planting & Growing

Anthony Meilland Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

---

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. To help this plant achieve its best flowering performance, periodically apply a flower-boosting fertilizer from early spring through into the active growing season. It is particular about its soil conditions, with a strong preference for rich, acidic soils. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
