Height: 3 feet

Spread: 3 feet

Sunlight:

Hardiness Zone: 8a

Group/Class: Hybrid Tea Rose

Description:

Stunning, large red blooms with a strong fragrance, complimenting rich deep green foliage; great for the garden, containers, or along borders; very disease resistant

Ornamental Features

Karl Herbst Rose features showy fragrant fully double red flowers at the ends of the branches from early summer to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves do not develop any appreciable fall colour.

Landscape Attributes

Karl Herbst Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Karl Herbst Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Karl Herbst Rose will grow to be about 3 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

Karl Herbst Rose

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
