Height: 4 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 6a

Other Names: Artista Panarosa Rose

Group/Class: Painters Collection

Description:

A stunning hybrid tea rose featuring large, paint splashed, red and white blooms with golden-orange centers; short and compact with excellent disease resistance; an excellent cut flower

Ornamental Features

Maurice Utrillo Rose features showy fragrant double white flowers with red overtones and gold eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall.

Landscape Attributes

Maurice Utrillo Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. It has no significant negative characteristics.

Maurice Utrillo Rose is recommended for the following landscape applications;

Planting & Growing

Maurice Utrillo Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
