Height: 5 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 6b

Group/Class: Floribunda

Description:

Great landscape value and a free flowering habit with showy double clusters of mildly fragrant, pink blooms sitting atop a straight and standard trunk; create a visual focal point in the garden; attracts pollinators

Ornamental Features

Brilliant Pink Iceberg Rose Tree features showy lightly-scented double shell pink flowers with hot pink overtones held atop the branches from early summer to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage which emerges burgundy in spring. The glossy oval compound leaves do not develop any appreciable fall colour. The smooth tan bark adds an interesting dimension to the landscape.

Landscape Attributes

Brilliant Pink Iceberg Rose Tree is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. It has no significant negative characteristics.

Brilliant Pink Iceberg Rose Tree is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Brilliant Pink Iceberg Rose Tree

Planting & Growing

Brilliant Pink Iceberg Rose Tree will grow to be about 5 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
