### Milkshake Cherry Purple Chrysanthemum

*Chrysanthemum 'Milkshake Cherry Purple'*

Height: 24 inches

Spread: 24 inches

Sunlight:

Hardiness Zone: (annual)

Other Names: Garden Mum, Korean Mum, Dendranthemum

Group/Class: Milkshake Series

*Milkshake Cherry Purple Chrysanthemum flowers*

### Description:

Known for their vibrant colors, this particular selection features glowing magenta-fuchsia double blooms which blanket a perfectly mounded plant; has a long flowering period; adaptable to various conditions, best in full sun

### Ornamental Features

Milkshake Cherry Purple Chrysanthemum features bold double fuchsia daisy flowers with cherry red overtones at the ends of the stems from early to mid fall. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in colour throughout the season.

### Landscape Attributes

Milkshake Cherry Purple Chrysanthemum is an herbaceous annual with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Milkshake Cherry Purple Chrysanthemum is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting

## Planting & Growing

Milkshake Cherry Purple Chrysanthemum will grow to be about 24 inches tall at maturity, with a spread of 24 inches. Although it's not a true annual, this plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Milkshake Cherry Purple Chrysanthemum is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It can be used either as 'filler' or as a 'thriller' in the 'spiller-thriller-filler' container combination, depending on the height and form of the other plants used in the container planting. It is even sizeable enough that it can be grown alone in a suitable container. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
