Sweet Vigorosa Rose

Sweet Vigorosa® Rose *Rosa 'KORdatura'*

Height: 3 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 5b

Group/Class: Shrub Rose

Description:

This beautiful and hardy variety produces large, semi-double, hot pink blooms; quite impressive as an accent or massed; lovely sweet fragrance; all roses need full sun and well-drained soil

Ornamental Features

Sweet Vigorosa Rose features showy fragrant hot pink flowers at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Sweet Vigorosa Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Sweet Vigorosa Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Sweet Vigorosa Rose will grow to be about 3 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.
