## Hot Wonder Rose

### Hot Wonder Rose

*Rosa 'Hot Wonder'*

Height: 4 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 4a

Group/Class: Easy Elegance Rose

#### Description:

Commanding super red fluorescent blossoms cover this rose all season long giving it tremendous presence wherever planted; glossy green disease resistant foliage, and a compact, upright stature makes this an ideal choice for any garden application

#### Ornamental Features

Hot Wonder Rose is draped in stunning fragrant cherry red flowers at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed in late fall.

#### Landscape Attributes

Hot Wonder Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Hot Wonder Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

#### Planting & Growing

Hot Wonder Rose will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.
