Moraine Honeylocust

Moraine Honeylocust

Gleditsia triacanthos 'Moraine'

Height: 50 feet

Spread: 50 feet

Sunlight: ☉

Hardiness Zone: 4a

Description:

A reliable and popular shade tree, valued for its delicate, ferny appearance which casts a dappled shade below; wide spreading habit of growth, very tolerant of adverse growing conditions, good fall color; a seedless variety

Ornamental Features

Moraine Honeylocust has dark green deciduous foliage on a tree with a round habit of growth. The pinnately compound leaves turn an outstanding gold in the fall.

Landscape Attributes

Moraine Honeylocust is an open deciduous tree with a more or less rounded form. It lends an extremely fine and delicate texture to the landscape composition which can make it a great accent feature on this basis alone.

This is a relatively low maintenance tree, and is best pruned in late winter once the threat of extreme cold has passed. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Moraine Honeylocust is recommended for the following landscape applications;

- Shade

Planting & Growing

Moraine Honeylocust will grow to be about 50 feet tall at maturity, with a spread of 50 feet. It has a high canopy of foliage that sits well above the ground, and should not be planted underneath power lines. As it matures, the lower branches of this tree can be strategically removed to create a high enough canopy to support unobstructed human traffic underneath. It grows at a fast rate, and under ideal conditions can be expected to live for 70 years or more.

This tree should only be grown in full sunlight. It is very adaptable to both dry and moist locations, and should do just fine under average home landscape conditions. It is not particular as to soil type or pH, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selection of a native North American species.
