

Aurea Hardy Fuchsia
Fuchsia magellanica 'Aurea'

Height: 3 feet

Spread: 5 feet

Sunlight:

Hardiness Zone: 6b

Description:

A striking fuchsia variety featuring nodding flowers in shades of red and purple against striking yellow-green foliage; very attractive to hummingbirds; a dense self supporting round shrub that has shown to be resistant to mites

Ornamental Features

Aurea Hardy Fuchsia features dainty nodding crimson bell-shaped flowers with purple centers along the branches from early summer to mid fall. It has attractive yellow-variegated chartreuse foliage with hints of grayish green. The pointy leaves are highly ornamental and remain chartreuse throughout the winter.

Landscape Attributes

Aurea Hardy Fuchsia is a dense multi-stemmed evergreen shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting hummingbirds to your yard.

Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Aurea Hardy Fuchsia is recommended for the following landscape applications;

- Accent
- General Garden Use
- Container Planting

Planting & Growing

Aurea Hardy Fuchsia will grow to be about 3 feet tall at maturity, with a spread of 5 feet. It has a low canopy. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. You may want to keep it away from hot, dry locations that receive direct afternoon sun or which get reflected sunlight, such as against the south side of a white wall. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America.

Aurea Hardy Fuchsia makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
