

Chief Bloodgood Dogwood
Cornus alba 'Chblzam'

Height: 6 feet

Spread: 6 feet

Sunlight:

Hardiness Zone: 4

Description:

A colorful and extremely hardy accent shrub with bright green summer foliage; brilliant red-purple fall color and crimson-red stems in winter; very versatile from a landscape perspective and quite carefree

Ornamental Features

Chief Bloodgood Dogwood has attractive green deciduous foliage on a plant with a round habit of growth. The pointy leaves are highly ornamental and turn an outstanding red in the fall. It has clusters of creamy white flowers at the ends of the branches in late spring. It produces white berries in mid summer. The crimson branches are extremely showy and add significant winter interest.

Landscape Attributes

Chief Bloodgood Dogwood is a multi-stemmed deciduous shrub with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and can be pruned at anytime. It has no significant negative characteristics.

Chief Bloodgood Dogwood is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Chief Bloodgood Dogwood will grow to be about 6 feet tall at maturity, with a spread of 6 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It is an amazingly adaptable plant, tolerating both dry conditions and even some standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.
