

**Holiday Gold Flowering Crab**  
*Malus 'Hozam'*

Height: 20 feet

Spread: 15 feet

Sunlight: ○

Hardiness Zone: 4

Other Names: Rosebloom, Crabapple

**Description:**

A delightful tree with showy white flowers in spring and bright yellow fruit in fall; a compact, rounded habit of growth; makes an exceptional accent for the garden, best used as a solitary, needs well-drained soil and full sun

**Ornamental Features**

Holiday Gold Flowering Crab is blanketed in stunning clusters of fragrant white flowers along the branches in mid spring, which emerge from distinctive pink flower buds before the leaves. The fruits are showy yellow pomes carried in abundance from early to mid fall. It has forest green deciduous foliage. The pointy leaves turn yellow in fall.

**Landscape Attributes**

Holiday Gold Flowering Crab is a deciduous tree with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This tree will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Holiday Gold Flowering Crab is recommended for the following landscape applications;

- Accent
- Shade
- General Garden Use

### **Planting & Growing**

Holiday Gold Flowering Crab will grow to be about 20 feet tall at maturity, with a spread of 15 feet. It has a low canopy with a typical clearance of 3 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 50 years or more.

This tree should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
