

Coates Saucer Magnolia

Magnolia x soulangeana 'Coates'

Height: 20 feet

Spread: 15 feet

Sunlight:

Hardiness Zone: 5

Description:

A compact magnolia with vase-shaped, rose-pink and white flowers which appear in early spring before the leaves, upright habit, excellent size for smaller home landscapes; flowers are susceptible to late spring frosts

Ornamental Features

Coates Saucer Magnolia is smothered in stunning fragrant rose cup-shaped flowers with white overtones held atop the branches in early spring before the leaves. It has dark green deciduous foliage. The large pointy leaves turn coppery-bronze in fall.

Landscape Attributes

Coates Saucer Magnolia is a multi-stemmed deciduous tree with a shapely oval form. Its relatively coarse texture can be used to stand it apart from other landscape plants with finer foliage.

This is a relatively low maintenance tree, and should only be pruned after flowering to avoid removing any of the current season's flowers. It has no significant negative characteristics.

Coates Saucer Magnolia is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Coates Saucer Magnolia will grow to be about 20 feet tall at maturity, with a spread of 15 feet. It has a low canopy with a typical clearance of 3 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 80 years or more.

This tree does best in full sun to partial shade. It requires an evenly moist well-drained soil for optimal growth, but will die in standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type, but has a definite preference for acidic soils. It is somewhat tolerant of urban pollution. Consider applying a thick mulch around the root zone in winter to protect it in exposed locations or colder microclimates. This particular variety is an interspecific hybrid.
