

Raspberry Punch Rose
Rosa 'Raspberry Punch'

Height: 24 inches

Spread: 24 inches

Sunlight:

Hardiness Zone: 5b

Group/Class: Miniature Rose

Description:

Attractive raspberry pink blooms that have just a slight fragrance, set on dense, disease resistant foliage that is a beautiful dark green and provides excellent contrast; great for smaller garden areas, containers, or as groundcover

Ornamental Features

Raspberry Punch Rose is bathed in stunning hot pink flowers at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Raspberry Punch Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Raspberry Punch Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use
- Groundcover

Planting & Growing

Raspberry Punch Rose will grow to be about 24 inches tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
